DNH serves a population of 270,000 in the Nundu Health Zone and 30,000 Burundi refugees.

A large group of approximately 30 people, including men and women of various ages, are posed for a group photo in front of a building. Some individuals are wearing white lab coats, while others are in casual or traditional clothing. Several people are wearing face masks. The group is arranged in several rows, with some people kneeling or sitting in the front. The background shows a building with a sign that partially reads "VAIL ALHDN" and "PREVENT COVID".

With 110 beds,

DNH is the referral hospital

What do we have?
A story of the Lord’s provision.

GOD'S PROVISION

- ▶ Then he told the people to sit down on the grass. Jesus took the five loaves and two fish, looked up toward heaven, and blessed them.
- ▶ Then, breaking the loaves into pieces, he gave the bread to the disciples, who distributed it to the people.
- ▶ They all ate ... and afterward there were twelve baskets of leftovers. Matt 14:14-20
